An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 19-21.

This application is in condition for allowance except for the presence of claims 19-21 to the device non-elected without traverse. Accordingly, claims 19-21 have been cancelled.

The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests a method of making a package substrate including copper plating a whole surface of a base substrate having a plurality of through-holes defined in a copper clad laminate; laminating a first dry film on the plated through-holes, followed by developing the dry film; etching a copper foil not covered with the first dry film so that an upper portion and a lower portion of the base substrate are patterned; stripping the first dry film, followed by coating, exposing and developing a second dry film on the base substrate so that only upper portion of the base substrate to be subjected electrolytic Au plating is exposed; grounding an electrolytic Au plating terminal to a solder ball pad, followed by Ni-Au plating a wire bonding pad through the through-holes; removing the second dry film by use of stripping solution; coating, exposing and developing third dry film on the substrate to pattern the solder ball pad, removing a copper foil not covered with the third dry film to form circuit patterns, removing the third

dry film, applying a solder resist onto a predetermined portion of the substrate, which is exposed, developed and then dried, and coating an organic solderability preservative on the solder ball pad for metal finishing of the solder ball pad.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M. Picardat whose telephone number is 571-272-1841. The examiner can normally be reached on Monday-Thursday 7:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amir Zarabian can be reached on 571-272-1852. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
